Do you think this is just glassware?

As LAV, we believe innovative and creative ideas make the world a better place. Correspondingly we work every day with an unyielding enthusiasm to add more value to our customers' lives with our products and digital services. We have succeeded in becoming a trusted brand, identified with change and dynamism; By virtue of our craftsmanship and know-how, sustainable and state-of-the-art production facilities, and the sincere communication we have established with our customers and business partners.

We are still in a pandemic that started at the beginning of the last year and deeply affected our lives and our understanding of work and business. As a result of the measures we took in our factories and offices, our production and logistics activities remained uninterrupted without compromising our employees' safety during this period. We ensured our communication's effective flow with our customers and business partners through an online home-office system. This whole endeavor showed us how we were on the right track with our digital investments, such as online shopping, which we have laid the foundations for in the previous years.

We've also re-established our management structure to spread the brand dynamism to every single unit and team member. We adopted the "Agile Management" approach that would further improve our ability to respond to ever-changing market demands. We implemented a fast production-oriented work model where the teams keep motivated, and workgroups that can make autonomous decisions are utilized. Simultaneously, we thinned down the review, control, and approval phases and created a work environment that both internal and external customers can remain involved in all stages. Our "Journey to Excellence" continues with digital solutions we had constructed for our innovative customers and a sustainable future since 2015 when we joined the EFQM organization. We expand and update the efficiency and profitability through three main strategies on an operational basis in this direction.

We are also preparing a report we will be happy to share in the upcoming days. The 2020 LAV Sustainability Report will include subjects that LAV has been working on and commit to doing so: Gender equality, energy efficiency, efficient resource utilization, social responsibility projects, and product safety. Here are some of the headlines we are proud to list: Women make up 45% of our white-collar workers, we have the most energy and water-efficient factories of the sector in Turkey, not only we produce glass, but we are also one of the world's three companies that manufacture its own production machinery.

Being aware that everything starts and ends with "communication," we can't reiterate enough that our customers can always have constant and open communication with us at will. We know LAV derives its strength from familiarizing with its customers as much as its production capacity. We determine customer needs clearly through market analysis, consumer research, home visits, and we follow and grasp global trends. We establish the right dialogue to be sensitive to our customers' needs, always act with "we-feeling," and hit the right chord of consumers and our business partners.

We hope you'll see more than just glassware in this catalog...

Tuğrul Baran
LAV General Manager

STEMWARE

The material value of wine varies from a few dollars to thousands of dollars, but the concept of it and the accumulated meanings through centuries make any wine precious. This treasure needed to be served in a particular glass style to relish its refined flavors and aroma. LAV stemware family is the perfect balance of our deep appreciation of wine and the needs of the establishments and their guests. Red, white or blush; Sweet, dry or sparkling; Inexpensive or blue chip: For every instance or any wine there is at least one perfect "LAV" match.

terra 

tra367
wine,
v: 475 cc, 16 1/4 oz
h: 109 mm, 4 2/7 in, Ø: 71 mm

Why stemless?

Those times people discriminate against stemless wine glasses as "not proper" is history. Both functionally and aesthetically, they've quite the exceptional members, like our new Terra. A satisfyingly large but still elegant on the hand wineglass makes storage of large wine glasses more manageable and efficient for homes. The soft hollow on the base provides a gentle and also secure grip. Our goal was to create a desirable object that can be proudly displayed and a versatile tool that also adds to the experience. A broad enough base is suitable for Chardonnay's likes, and its sleek form and height make Terra a proper glass for deep reds similar to Cabernet Sauvignon.

A clear glass tumbler filled with whiskey and several large ice cubes sits on a wooden bar. The background is a warm, blurred bokeh of lights.

CHILL OUT

A woman with dark hair, wearing a black and white striped shirt and large chain-link earrings, is lying down in a relaxed pose. The room has a brick wall and a chandelier with glowing lights.

MOOD

WHISKY GLASSES

The emergence of single malts and their rapid integration into the mainstream give an undeniable boost to global whisky culture. Even the simplest coffee shops started adding a few bottles of whisky to their repertoires. But being a part of popular culture does not remove value from its heritage, and the demand is higher than ever. Whisky is still the 'water of life,' and it will always be a more elevated experience that deserves the befitting glasses.

WELLNESS

MOOD

TUMBLERS

Glassware in an establishment is not just a tool of service but a clear statement about your identity. Not every space needs every kind of glassware, but tumblers are indispensable instruments regardless of your operation type. LAV's tumbler arsenal is more than capable of handling conventional expectations related to tumblers. But we are also responsive to the zeitgeist and design our tumblers flexibly to fulfill the younger audience's creative soul. So, either for the most traditional water service or a new age dessert, LAV tumblers have something to offer and add value to your establishment.

Fine rim, finer service

The word "fine" has an over the clouds meaning in Horeca rather than other business or daily life. It defines a wholesome concept of eating&drinking. It's not everyone's cup of tea and not a feasible thing for 99% of establishments, but that shouldn't stop you from uplifting some elements to the borders of "fine dining" in your space. In every category, LAV has a solid and well-tried suggestion. With our fine rim glassware, your guests will see and feel the "finery" in a sincere and approachable ambient.

Look great on every table

Whether you're serving aperitifs prior to a dinner or fresh juices at a brunch, footed tumblers add a whiff of spruceness and a chic flare to any tabletop. LAV footed tumblers' essential characteristic is "smart classic." Thus they fit seamlessly into any concept: For a tempting dinner setting, match the wine glasses with footed tumblers for water, or at a luxury brunch, let your footed tumblers accompany champagne flutes.

CHATTY

MOOD

The new generation of customers demands more creative and crafty drinks, especially cocktails and beers. They give life to new media and control it, so if they require something, the rest of the world follows. So the days of stocking up on one or two beer glasses are over; you need the service of the right beer with the right glass. And cocktail making has already been accepted as a way of art, and establishments need to choose the best vessels to complement this art.

Serve cold and in the right glass

Rise of the craft beers exposed us to the rich world of international beers. Boutique beer makers and microbrewers now produce the best originals and make them more accessible. So beer glasses earned their well-deserved appreciation from the gastronomy culture. Goblet, with its long and elegant, the chalice with its thick and heavy bottoms are excellent choices for high ABV (+8%) beers like German Doppelbocks and Eisbocks and Belgian Tripel and Quadruples.

Glass mugs&cups have lots of advantages when it comes to serving coffee. Contrary to popular wisdom, glass mugs are good at keeping hot beverages warm. And, they don't steal from taste or aroma. Glass mugs let your customers see their coffee with all its deep colors and foam; this transparency has an elevating effect on the experience. A glass mug is a statement of simplicity and minimalism. Whether you serve coffee or tea, LAV has the best glass mug options out there.

Master of balance

When we look at the 2021 color trends, the first thing that strikes our eyes is neutrals, which still dominate strongly. The revamped color palette shifts to warmer tones. Warmer whites, more soothing tones, and grays that balance them! Gray; The color that neutrality, harmony, modesty, and simplicity are most associated with. Gray is virtually a symbol for sustainability, a minimal and timeless combination of white and black. When used with vivid colors, it is one of the main actors of contrasting aesthetics with its calming effect like white.

Rise of the juice

The juice and Smoothie Bars industry has benefited from changing consumer preferences in the last few years. The side effects of the ongoing pandemic only bolster the growth of the sector. Colorful fruit and veggie juices will be more indispensable for customers. Exhibiting vibrant colors, dense textures, and healthy particles is as essential as the juice's contents. LAV jugs and carafes make the best of the visually appealing job, yet they're functional and practical. They keep your juices fresh and spills on the bar or tables to a minimum!

WORKING

MOOD

TEA GLASSES & SAUCERS

Tea culture is on the rise and may see a boom rivaling "Third Wave Coffee." And there is no better tool than the Turkish tea glasses to introduce this movement. These tulip-shaped, petite yet intact glasses have unequalled ergonomic properties. The curvy outline keeps the tea hot and exposes the color without hiding any beauty. LAV tea glasses will be a sophisticated leap forward from your everyday mug.

Don't miss the "Tea Train"

These upcoming years could be the best time to dwell in the tea business. Researches continue to verify the health benefits of regularly drinking tea and herbs, and consumers are becoming more aware of the need to support a healthy lifestyle. Customers desire to be able to make better choices about what they drink. Besides the wellness and health benefits, they also demand good taste, comfort, and a story, a culture to connect with. Tea checks all those boxes. Also, it has an overwhelming advantage over other hot beverages; it speaks to both the rapidly expanding market for Seniors and trend-setting Millenials.

ALIBEY
RESORT SORGUN

www.alibey.com

about LAV...

Since its establishment in 1994, LAV has taken a leading role in the glassware industry thanks to its focus on market, customer, technology and innovation. Its facilities located in Kütahya, LAV is the world's fifth largest glassware manufacturer, supplying 2 million items every day with a large range of tumblers, stemware, bowls and etc. Today, LAV employs 2,000 people, with its sales and marketing office in Istanbul and two production plants built on a 300,000 square meter area in Kütahya.

LAV exports its innovative and unique glassware products to 130 countries, including France, Spain

and USA in particular, as well as Brazil, the Philippines and China. It does this thanks to its globally extensive distribution and sales network, which reaches different landmark based countries around the world such as Zanzibar, Mauritius Islands, Victoria Falls, Tokyo, Sydney, etc.

LAV carries out its research and development activities on glassware production technologies at its Technopark facility, which is described as a "plant within a plant." Built in 2001, the innovation-focused Technopark is one of the three companies in the world which creates its own production technology.
